Background and experience

Company, although very recent, it has a technical team with extensive previous experience in consulting services in the preparation and management of applications for Community Funds. This company also carry out other activities related to the Information Society, as well as the provision of support services for education and training. They are specialized on strengthen partnerships, both at the national level and in the field of International Cooperation, by establishing a link between organizations for educational purposes with the aim of improving the quality of education and training programs.

One of the expertise of the company is the experience in the use of ICT for developing and supporting on-line communities based on the development and use of on-line tools for the training of teachers and trainers. Staff at the organization have worked at institutional and policy levels in education and have extensive experience of the issues the project addresses.

These characteristics make Sucessos Criativos, Lda a partner that will bring added value in the area of project management. Although this component is extremely important, the greatest added value is the ability to dynamize online communities, combined with a strong technical and scientific knowledge in the field of digital literacy and all the components related to programming.

Pedro Fonseca Santos is the founding partner of SUCESSOS CRIATIVOS and 2GO OUT Consulting and is an expert in the fields of energy and environment with 20 years of experience. It's also the President of the Board of APEA – Portuguese Association of Environmental Engineering (with more than 2600 members). He has 20 years of experience in Environmental and Energy Planning and in Sustainability processes (Local Agenda 21, Municipal and Regional Environmental and Energy Plans).
